

Wear Kryptoks In Summer.

Kryptok lenses give far vision through the top and near vision through the lower part of the lens, taking the place of two pair of glasses, or making it unnecessary to keep removing and replacing your glasses.

We provide Kryptoks ground especially for your eyes—glasses without a seam or dividing line, so that they appear to be a single-range lens.

You will find them particularly good glasses for the out-door season, thoroughly satisfactory and mighty convenient.

AILEMENTS OF WOMEN

Health Talk No. 14, by
DRS. STATES
THE CHIROPRACTORS

Many of the torturing ills that women suffer are due to strains upon the spine in the region affected. The most serious of these ailments usually date from the first birth.

When the cause is lack of alignment of the joints of the backbone, causing nerve pressure, irritation and weakness, there is only one sensible form of correction—the spinal adjustment such as can be given by the skilled chiropractor only. It restores alignment and removes the nerve pressure.

Daily Pain Forced Her to Lay Down
For fifteen years I suffered constantly from female diseases. I seldom passed a day without being compelled to lie down there to suffer until the pain died down of its own accord. I tried everything and lost faith in all methods of healing. My friends recommended chiropractic. Today I feel strong do not suffer and am in every way a well woman.
